

LLM Visibility Audit and Recommendations Report

Five public URLs scanned.
One prioritization map delivered.

EXCLUSIVE TO 10 READERS / \$25,000 VALUE

What you get:

5 INDIVIDUAL REPORTS

- LLM readiness score
- Agentic experience score
- AI crawler access matrix
- Detection scorecard
- HTML quality audit
- Expert analysis

COMPARITIVE SCORECARD

- All five sites ranked on every dimension, side by side
- Turn five scores into a single prioritization map

SYNTHESIS + FINDINGS CALL

- Top 3-5 priority actions at the portfolio level
- 2-3 week turnaround
- Works on any public URL
- No backend access required

Best for:

COMPETITIVE BENCHMARKING

Run all five as competitor URLs. See which crawlers you're blocking that competitors have open. One doc for leadership.

PORTFOLIO PRIORITIZATION

Shared failure causes are invisible until you look side by side. Five scores reveal what one score never could.

PRE-ENGAGEMENT DISCOVERY

Know where gaps are concentrated before committing to a deeper engagement. The comparative scorecard does that work.

AI SEARCH VISIBILITY

AI citations are top-of-funnel. This shows which of your properties are invisible to AI engines — and what to fix first.
